TABLE OF CONTENTS

Chapter 1 Introduction to Solar Energy
1.1 Introduction to solar Energy
1.2 Historical development into photovoltaic energy
1.3 Definition of terms
1.4 How solar panels generate electricity from the sun

Chapter 2 Components of photovoltaic system
2.1 Components of Photovoltaic systems
2.2 Solar system
2.3 Solar panel
2.4 Solar charge controller
2.5 Solar battery
2.6 Solar Inverter
2.7 Solar Accessories
2.8 DC Loads
2.9 Ac Loads

Chapter 3 Photovoltaic System types
3.1 Photovoltaic system types
3.2 Integrated photovoltaic battery charging systems
3.3 Day use system
3.4 Direct current system with storage batteries
3.5 Standalone solar system
3.6 Hybrid or on-grid solar system
3.7 Grid-tied, line-tie or utility connected solar system

Chapter 4 Power Generation
4.1 power generation
4.2 Renewable energy
4.3 Non-renewable energy
4.4 Why choose a particular source of energy for your electrical loads
4.5 Why solar energy should be your first priority
4.6 Why people reject solar energy

Chapter 5 Solar System Failure

5.1 Solar system failures
5.2 Reasons why solar systems installation fail
5.3 What determines the size of a solar system installation

Chapter 6 Power Audit

6.1 Power audit
6.2 Why embark on power audit
6.3 Types of solar power audit
6.4 Classification of Solar power audit
6.5 Basic tools for conducting solar power audit
6.6 Step by step approach for conducting solar power audit

Chapter 7 Electrical Loads

7.1 Electrical loads
7.2 Types of electrical loads
7.3 How to manage phantom and vampire loads in your homes
7.4 How electrical loads affect the size of a solar system

Chapter 8 Electrical Load Ratings

8.1 Electrical load ratings
8.2 Electrical name plate
8.3 Ratings of household electrical loads
8.4 Vital information from client for proper sizing of solar system
8.5 How to cut cost of solar system installation

Chapter 9 Roof

9.1 Roof
9.2 Why roof is considered in the training
9.3 Types of roof
9.4 Definition of terms
9.5 important points about the roof during solar power audit
9.6 Why choose roof for solar panel installation
9.7 Why roof should not be considered for solar panel installation

9.8 Walkway
9.9 Access to roof top
9.10 Roof Dimension

9.11 Step by step approach to follow during any size of solar project installation

Chapter 10 Solar Entrepreneur
10.1 Business opportunities in the solar industry
10.2 Solar business opportunities in the service sector
10.3 Product-oriented solar business opportunities
